

Download International Criminal Law Documents

OVERVIEW OF THE FIVE SOURCES OF ICL As international criminal law is a subset of public international law, the sources of ICL are largely the same as those of public international law.³ The five sources of ICL used by international and hybrid criminal courts generally are: 1) treaty law; 2) customary international law (custom, customary law); 3) ...This Documents Supplement accompanies the casebook *International Criminal Law, Fourth Edition* (2013). It is the most thorough compilation of documents available for classroom use with respect to international criminal law and related aspects of more general international law and human rights law. The sources of international criminal law are the same as those of general international law mentioned in article 38(1) of the Statute of the International Court of Justice: treaties, international customary law, general principles of law, judicial decisions and writings of eminent legal scholars. the international criminal court and positive complementarity: legal and institutional framework This study seeks to establish how the legal and institutional framework for positive complementarity may be effectively implemented.
