

Download Mouth Hygiene A Text Book For Dental Hygienists

Teeth Cleaning. Treat yourself and your family to personalized care in a peaceful setting. Our team of qualified Dental Hygienists will provide a comprehensive dental cleaning and make referrals and recommendations as necessary. A dental hygienist or oral hygienist is a licensed dental professional, registered with a dental association or regulatory body within their country of practice. Prior to completing clinical and written board examinations, registered dental hygienists must have either an Associate's or Bachelor's degree in Dental Hygiene from an accredited college or university. The American Dental Association (ADA) accredited programs are a minimum of three years in length. According to the American Academy of Periodontology, U.S.-trained periodontists are specialists in the prevention, diagnosis and treatment of periodontal diseases and oral inflammation, and in the placement and maintenance of dental implants. Many periodontists also diagnose and treat oral pathology. Dr. Tara M. Griffin has received her Diplomate by the American Board of Dental Sleep Medicine and The American Sleep and Breathing Academy. She is also certified in Botox® and Juvederm® treatments. Dr. Tara Griffin is also an International Instructor for VIVOS/DNA Appliances™.
