

Download Pregnancy And Childbirth The Well Woman

Pregnancy, also known as gestation, is the time during which one or more offspring develops inside a woman. A multiple pregnancy involves more than one offspring, such as with twins. Pregnancy can occur by sexual intercourse or assisted reproductive technology. Childbirth typically occurs around 40 weeks from the last menstrual period (LMP). This is just over nine months, where each month ...Childbirth, also known as labour and delivery, is the ending of a pregnancy by one or more babies leaving a woman's uterus by vaginal passage or Caesarean section. In 2015, there were about 135 million births globally. About 15 million were born before 37 weeks of gestation, while between 3 and 12% were born after 42 weeks. In the developed world most deliveries occur in hospitals, while in ...Licensed Midwives/Certified Professional Midwives Shelly Girard and Seannie Gibson offer homebirth midwifery services, well-woman gynecology, preconception counseling, extended postpartum care, advanced doula services, breast feeding education and support, and American Red Cross CPR training to families in the Greater Los Angeles area. Although pregnancy is the same for women worldwide, their safety varies greatly depending on where the women live and the type of medical care they receive, if any.
