It's in excellent running condition, power trim works great and shifts in and out of gear smoothly. An outboard motor is a propulsion system for boats, consisting of a self-contained unit that includes engine, gearbox and propeller or jet drive, designed to be affixed to the outside of the transom. They are the most common motorized method of propelling small watercraft. As well as providing propulsion, outboards provide steering control, as they are designed to pivot over their mountings and ...Seloc Manual SELOC Marine service and repair manuals provide the most comprehensive information available for outboard, inboard, stern-drive and jet ski watercraft.
